

OUR CREDO

DO YOU WANT TO BE HEALED?

To consider the possibility of being able to heal yourself is all we ask –
That you have the power to make this happen is our belief in you.

DO YOU KNOW...

This amazing thing we call our physical being has the ability to heal itself?

That our thoughts and our state of being have a direct impact on our
body's ability to be able to function normally and repair itself!?

That if we keep re-enforcing our negative thought patterns, we go
against the natural flow of life which is to grow and to regenerate itself?

That through this thought pattern we close off to new possibilities and
new learning and deny ourselves the regeneration of new life?

SO ASK YOURSELF...

Am I always busy with everything and everyone else around me?

Do I pay little attention to my own state of being?

Do I give myself time to make sure I am sane and healthy?

Can I see this in the quality of sleep that I have!?

“You are captain of your physical vessel!

You can steer it to health and prosperity!

In doing this, there is only...

investment – and a reward!”
